Chicago Chapter ISPE

MARCH MEMBERSHIP LUNCHEON

Wednesday, March 18, 2009

11:30 AM

Please join ISPE Chicago Chapter and SAME Chicago Chapter for a joint membership luncheon. **Bob Ivarson, Practice Director, Water Resources, HNTB Corporation**, will discuss design and operational challenges for the Gulf Intra Coastal Waterway West Closure Complex Pump Station. The pump station is part of the New Orleans area hurricane protection system. The 20,000 cfs (9,000,000 gpm) pump station is currently in design, with construction scheduled to start this June and is to be partially operational by June 2011.

Networking will begin at 11:30 AM followed by lunch at Noon.
