**Director of NCO Programs:**

VACANT

**This  
Month's  
Membership  
Meeting**

This month's program is delivered by Tom McManus of SCS Engineers. Tom presents on the latest as covered under the Renovation, Repair and Painting (RR&P) Rule. So mark your calendar for our Monday 23 Aug 2010, meeting. We start at 11:30 at the beautiful Sunrise Vista Golf Course Clubhouse. Please RSVP to [Russ.Collins@nellis.af.mil](mailto:Russ.Collins@nellis.af.mil) by 5:00 pm on Tuesday 17 Aug, so we can provide a headcount. Also, if you need access to the base, please so indicate with your RSVP. You'll enter the base through the Tyndall Gate (Nellis Blvd @ I Street). Lunch is a gourmet hamburger buffet, so please bring \$10 cash to cover the cost of the meal.

**Last  
Month's  
Meeting**

The annual Engineering & Construction Overview for Nellis, Creech, Tonopah, and Nevada Test and Training Range drew a huge audience of about 170 attendees. Lt Col McCloud covered projects currently in execution and those upcoming in future year programs. Clearly, engineering and construction activities remain strong in the Nellis, Creech, Tonopah and Nevada Test and Training Range programs.

**Upcoming  
Meetings**

Our next meeting is on 28 Sep 2010. Henderson Engineers will provide a follow-up presentation, a part two of the sustainable design presentation we received in June—this one covering energy codes from a general standpoint and in-depth review of the new ASHRAE 189.1 standard destined to be the new national energy code. "Part one" was very well received, so you won't want to miss this sequel. We're open for programs for 23 Nov, and all of 2011, so if you have a proposal for a program, please contact Russ Collins.

**When is the  
2010 Golf  
Tournament?**

Our 11<sup>th</sup> Annual Nevada Day Golf Tournament will be the last Friday in October, which is when Nevada Day is recognized. So mark your calendars for 29 Oct 2010, so it doesn't sneak up on you. As we've done in the past, we'll feature an Early Bird discount, so be sure to sign up early and reap the savings. We were very close to selling out the course last year, so let's see if we can fill the links this year. Each year this tournament gets better and better, so mark your calendar and join us in a great outing.
