**Director of NCO Programs:**  
 VACANT

**This  
 Month's  
 Membership  
 Meeting**

Henderson Engineers will provide a follow-up presentation, a part two of the sustainable design presentation we received in June—this one covering an in-depth review of the new ASHRAE 189.1 standard destined to be the new national energy code. “Part one” was very well received, so you won’t want to miss this sequel. So mark your calendar for our Tuesday 28 Sep 2010 meeting. We start at 11:30 at the beautiful Sunrise Vista Golf Course Clubhouse. Please RSVP to [Russ.Collins@nellis.af.mil](mailto:Russ.Collins@nellis.af.mil) by 5:00 pm on Wednesday 22 Sep 2010, so we can provide a headcount. Seating is limited, so this will be available to the first 60 to respond. Also, if you need access to the base, please so indicate with your RSVP **and provide your date of birth.** You’ll enter the base through the Tyndall Gate (Nellis Blvd @ I Street). Lunch is a gourmet hamburger buffet, so please bring \$10 cash to cover the cost of the meal.

**Last  
 Month's  
 Meeting**

Tom McManus of SCS Engineers provided a presentation on the latest lead-based paint disturbance requirements covered under the Renovation, Repair and Painting (RR&P) Rule. In lieu of our standard monthly meeting, our next event is the Nevada Day Golf Tournament (see below) on 29 Oct 2010. We’re open for programs for 23 Nov, and all of 2011, so if you have a proposal for a program, please contact Russ Collins.

**Upcoming  
 Meetings**

Our 11<sup>th</sup> Annual Nevada Day Golf Tournament is on the last Friday in October, which is when Nevada Day is recognized. So mark your calendars for 29 Oct 2010, so it doesn’t sneak up on you. As we’ve done in the past, we’ll feature an Early Bird discount, so be sure to sign up early and reap the savings. We were very close to selling out the course last year, so let’s see if we can fill the links this year. Each year this tournament gets better and better, so mark your calendar and join us in a great outing.
