This month we will receive a demonstration from Capt Charles Hassell of the 99th Civil Engineering Squadron on his construction experience in support of Operation Iraqi Freedom while deployed. A brief recap by SMSgt Charles Rowland of his experience while attending the 2nd Annual Joint Engineer Senior NCO Symposium will follow. The meeting will take place at 11:30 on Thursday, May 26th, 2005 at the Nellis Air Force Base Officer's Club. **Please contact 2Lt Ed LeMay at (702) 562-5641 or EDOUARD.LEMAY@NELLIS.AF.MIL by close of business on 27 July if you plan on attending and need to add your name to the Nellis Main gate access list.**

The executive board meeting will immediately follow this month's membership meeting on Thursday, 26 May, 2005 at 1300.

Great fun was had by all at **Ninyo & Moore** for their seismic events presentation and materials testing laboratory tour! A heart-felt thanks for the presentation, warm welcome from your staff and delicious refreshments. You have a beautiful facility!

The next membership meeting will be on Thursday, 25 August 2005 at PBS&J's Las Vegas office. More information to follow.

Our annual Construction Camp program continues to be a great success. Kristina Miletovic has returned from the Air Force Academy camp and Jenny Lynn Graves is currently attending the Port Hueneme Navy Seabees camp. You can get more information about the camps at this website:

<http://posts.same.org/camps/>.

Southern Nevada Post answers the call! Henderson's Mayor James Gibson asked the engineering community to help our military deployed troops and their dependents by supporting the newly inaugurated Military Family Assistance Program (MFAP). The Post joined with other Southern Nevada engineers to donate over \$30,000 to this great cause. See the attached flyer on MFAP for additional program information.

National has posted a request for Young Members to attend ASCE/SAME Leadership Workshops in January 2006 in Salt Lake City (13-14) and Tampa (27-28). If interested, please contact Russ Collins to attend or recommend. National has 10 paid travel slots. We continue to seek a Young Member to fill the Director of Young Member Activities position on the Executive Board. Capt Cliff Theony is moving on... We thank him for all his efforts and wish him the best of luck.

Ninyo & Moore
